Aware360™

Security Awareness Training by SecureGovernComply®

Your people are your **first line of defense**—but also your biggest risk. Cybercriminals rely on human error, from clicking on a malicious link to falling for a phishing scam. Even the best technology can't protect you if your employees aren't prepared.

SecureGovernComply's **Aware360™ Security Awareness Training** empowers employees with the knowledge, skills, and habits to identify threats and respond appropriately. Through interactive training, phishing simulations, and ongoing reinforcement, we help your business reduce risk, improve compliance, and build a culture of security.

Engaging Security Training Modules

Interactive, bite-sized lessons employees actually remember.

Covers key cybersecurity topics: phishing, passwords, data protection, and safe browsing.

Available on-demand for maximum flexibility.

Phishing Simulations

Realistic, automated phishing tests sent to employees.

Identify vulnerabilities and track improvement over time.

Reinforce good behavior through "teachable moments."

Compliance-Focused Curriculum

Mapped to regulatory requirements (HIPAA, GDPR, PCI-DSS, GLBA, etc.).

Easy reporting for audits and compliance reviews.

Customizable to fit industry-specific needs.

Measurable Results & Reporting

Track employee progress and completion rates.

Monitor phishing test results and risk scores.

Deliver executive-level reports that show ROI and risk reduction.

Continuous Reinforcement

Monthly refreshers, reminders, and micro-learning modules.

Security newsletters, videos, and gamified quizzes.

Keeps security top of mind for employees all year long.

The SecureGovernComply Difference

Proven Platform – Built on Kaseya's industry-leading awareness training solution.

Security + Compliance – Training that strengthens defenses and meets regulations.

Designed for SMBs – Affordable, scalable, and easy to deploy.

Culture of Awareness – Builds employee confidence and accountability.

At SecureGovernComply, we believe technology alone isn't enough—**your people must be cyber-ready too.** With our **Aware360™ Security Awareness Training**, you'll reduce risk, empower employees, and protect your business where it matters most.

Aware360™: Turning awareness into your strongest line of defense.
