ComplianceManager360™

Virtual Compliance Manager by SecureGovernComply®

Compliance is complex, constantly changing, and critical to protecting your business. Regulations like HIPAA, PCI-DSS, GDPR, and CMMC require ongoing monitoring, documentation, and remediation—but many SMBs lack the resources or expertise to manage compliance effectively

SecureGovernComply's **ComplianceManager360™**—powered by Apptega—delivers a **virtual compliance program** that simplifies, automates, and centralizes compliance management. From assessments and policy creation to remediation tracking and audit readiness, we help your organization **stay compliant, reduce risk, and save time.**

With ComplianceManager360™, compliance isn't a burden—it's **streamlined, manageable, and actionable.**

Comprehensive Compliance Assessments

Assess your environment against HIPAA, PCI-DSS, GDPR, CMMC, NIST, and other frameworks.

Identify gaps, vulnerabilities, and areas requiring attention.

Benchmark your compliance posture and prioritize remediation tasks.

Centralized Policy & Control Management

Create, maintain, and enforce policies across your organization.

Map controls to multiple compliance frameworks for efficiency.

Maintain a single source of truth for all compliance activities.

Automated Remediation & Tracking

Assign remediation tasks and track progress across teams.

Receive notifications for overdue or incomplete actions.

Ensure accountability and visibility into compliance initiatives.

Audit Readiness & Reporting

Generate audit-ready documentation and evidence with minimal effort.

Track progress and produce executive-level dashboards.

Demonstrate compliance to regulators, partners, and auditors.

Continuous Monitoring & Updates

Stay current with evolving regulations and best practices.

Proactively identify compliance risks and recommend improvements.

Integrate with existing IT and security tools for ongoing oversight.

Scalable & Flexible for SMBs

Designed for small and mid-sized businesses with limited resources.

Flexible subscription models to match organizational needs.

Provides enterprise-grade compliance without hiring full-time staff.

The SecureGovernComply Difference

Virtual Expertise – Access skilled compliance professionals without full-time hires.

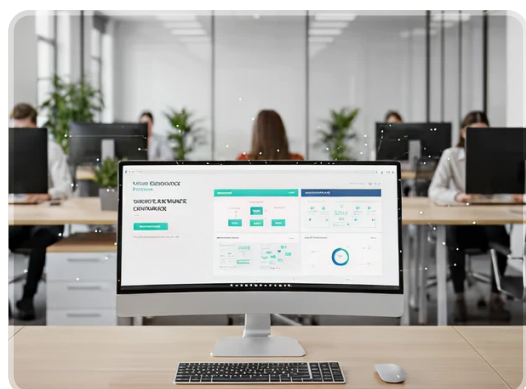

End-to-End Coverage – Assess, manage, remediate, and report all compliance activities.

Designed for SMBs – Cost-effective, scalable, and easy to implement.

Automation + Guidance – Simplifies management while providing actionable insights.

With **ComplianceManager360™**, SecureGovernComply ensures your organization is **compliant, prepared, and resilient**, making complex regulatory requirements simple and manageable.

ComplianceManager360™: Simplify compliance, reduce risk, and manage with confidence.
