main street's cybersecurity expert

DarkWeb360™

Proactive Dark Web Monitoring for SMBs

Your company's most sensitive data—passwords, emails, customer information—could already be circulating on the **dark web**, a hidden marketplace where cybercriminals buy and sell stolen data. For small and mid-sized businesses, a single exposure can lead to devastating financial, reputational, and compliance consequences.

That's why SecureGovernComply® created **DarkWeb360™**—a service that continuously monitors the dark web and alerts you when your business data shows up, so you can take fast action before attackers strike.

Backed by **HostedScan's industry-leading technology** and SecureGovernComply's expertise in governance and compliance, DarkWeb360™ gives you the **visibility, context, and confidence** to protect your organization's future.

DarkWeb360™ provides enterprise-grade dark web intelligence tailored for SMBs, offering a simple, affordable, and effective way to reduce risk.

Continuous Monitoring

Ongoing scans of dark web marketplaces, forums, and data dumps for your company's credentials and sensitive information.

Credential Exposure Detection

Alerts when employee or customer usernames, emails, or passwords are found for sale or trade.

Domain-Based Scanning

Monitors your organization's email domains for compromised accounts across dark web sources.

Actionable Alerts

Easy-to-read results that highlight exploited vulnerabilities, business impact, and remediation steps.

Compliance Support

Run scans on-demand or schedule them at regular intervals for ongoing protection.

Easy Deployment

Run automated penetration tests monthly, quarterly, or continuously, depending on your business needs.

Affordable Pricing

Enterprise-level penetration testing delivered at a fraction of the traditional consulting cost.

Why Choose DarkWeb360™ from SecureGovernComply?

Dark web monitoring is only valuable if you know
what to do with the results.

With SecureGovernComply, you gain:

Security Expertise

Guidance on how to act
when exposures are
found.

Governance Alignment

Insights that tie directly
into compliance
frameworks.

Peace of Mind

Confidence that your
business is not blind to
hidden threats.

DarkWeb360™ gives you the power to see what
criminals see—before they act. Stay ahead of
the threat, protect your customers, and secure
your future.

Shine a light on the dark web with
DarkWeb360™.
