ManageOffice360™

Office 365 Assessment & Management by SecureGovernComply®

Office 365 is more than just email—it's the backbone of productivity for small and mid-sized businesses. But without proper configuration, monitoring, and management, it can also become a source of security gaps, compliance risks, and operational inefficiencies.

SecureGovernComply's **ManageOffice360™** service provides **comprehensive assessment, monitoring, and management** of your Office 365 environment. We help you optimize performance, secure data, enforce policies, and maintain compliance—so your organization can get the most value from Microsoft 365 while minimizing risk.

Comprehensive Assessment

Evaluate your current Office 365 configuration for security, compliance, and performance.

Identify misconfigurations, inactive accounts, and potential vulnerabilities.

Benchmark your environment against Microsoft best practices.

Ongoing Management & Monitoring

Continuously monitor Office 365 services for security threats, suspicious activity, and policy violations.

Manage user accounts, permissions, and licenses to optimize efficiency.

Apply best-practice configurations for Exchange, SharePoint, OneDrive, and Teams.

Security & Compliance Oversight

Implement and enforce security policies, including MFA, conditional access, and DLP rules.

Provide audit-ready reports for HIPAA, GDPR, PCI-DSS, and other regulatory frameworks.

Protect sensitive data and reduce risk of accidental exposure.

Optimization & Productivity Enhancements

Recommend configurations that improve collaboration and workflow efficiency.

Remove redundant or inactive accounts to streamline management and reduce cost.

Provide guidance on advanced features to maximize ROI from Office 365 subscriptions.

Reporting & Executive Visibility

Centralized dashboards for IT and leadership teams.

Track usage trends, compliance posture, and security incidents.

Detailed reports for board meetings, audits, or executive review.

Scalable & Cost-Effective

Flexible plans designed for SMBs.

Reduce administrative overhead and free IT teams to focus on business priorities.

Scalable service to grow with your business and Microsoft 365 adoption.

The SecureGovernComply Difference

Expert Microsoft 365 Management –

Maximize value and security from your Office365 investment.

End-to-End Oversight – From

assessment to management, we cover all aspects of Office 365.
