ManagedGoogle360™

Google Workspace Assessment & Management by SecureGovernComply®

Google Workspace is a powerful productivity suite—but without proper configuration, monitoring, and management, it can introduce security risks, compliance gaps, and inefficiencies.

SecureGovernComply's **ManagedGoogle360™** service provides **full assessment, monitoring, and management** of your Google Workspace environment. From Gmail and Drive to Calendar and Google Meet, we ensure your organization is secure, compliant, and optimized for productivity, so you can focus on your business—not your cloud infrastructure.

Comprehensive Assessment

Evaluate your current Google Workspace configuration for security, compliance, and usage efficiency.

Identify misconfigured accounts, inactive users, and potential vulnerabilities.

Benchmark your environment against Google's best practices.

Ongoing Management & Monitoring

Continuously monitor Gmail, Drive, Docs, Sheets, Meet, and other apps for security threats and policy violations.

Manage users, permissions, groups, and shared drives to optimize efficiency.

Apply best-practice configurations to strengthen security and streamline collaboration.

Security & Compliance Oversight

Enforce multi-factor authentication (MFA), access controls, and data protection policies.

Provide audit-ready reports to meet HIPAA, GDPR, PCI-DSS, and other regulatory requirements.

Protect sensitive data and reduce the risk of accidental exposure.

Optimization & Productivity Enhancements

Recommend workflow improvements and collaboration strategies.

Decommission inactive accounts and optimize license usage to reduce cost.

Advise on advanced Google Workspace features to maximize ROI and user adoption.

Reporting & Executive Visibility

Centralized dashboards for administrators and leadership teams.

Track security incidents, user activity, and compliance posture.

Detailed reports for board meetings, audits, or executive review.

Scalable & Cost-Effective

Flexible plans designed for SMBs with limited IT resources.

Reduce administrative overhead and allow IT teams to focus on strategic initiatives.

Scalable to grow with your organization and adoption of Google Workspace.

The SecureGovernComply Difference

Expert Google Workspace Management
– Maximize value and security across your cloud environment.

End-to-End Oversight – From assessment to ongoing management, we cover all aspects of Google Workspace.

Proactive Security & Compliance – Identify and remediate issues before they escalate.

Designed for SMBs – Affordable, scalable, and easy to deploy.

With **ManagedGoogle360™**, SecureGovernComply ensures your Google Workspace environment is **secure, compliant, and optimized** for maximum productivity.

ManagedGoogle360™: Secure, manage, and optimize your Google Workspace with confidence.
