PenTest360™

Automated Penetration Testing for Always-On Security

Cybercriminals don't wait until you're ready—they're probing your defenses every day. Traditional penetration testing is critical, but it's often expensive, manual, and only performed once or twice a year. That leaves long gaps where new vulnerabilities go unchecked.

PenTest360™ changes the game. Combining automation with expert oversight, PenTest360™ delivers continuous, cost-effective penetration testing that mimics real-world attacks—helping your business stay secure, compliant, and confident year-round.

With PenTest360™, SecureGovernComply® provides small and mid-sized businesses the same offensive security capabilities that large enterprises rely on—without the heavy price tag or operational complexity.

Automated Attack Simulation

Continuous testing of your web applications, networks, and systems to detect exploitable weaknesses.

Real-World Exploit Validation

Goes beyond vulnerability scanning—tests whether weaknesses can truly be exploited by attackers.

Cloud-Based & Scalable

No infrastructure to maintain; testing grows with your environment.

Detailed Risk Reports

Easy-to-read results that highlight exploited vulnerabilities, business impact, and remediation steps.

Compliance-Ready Evidence

Run scans on-demand or schedule them at regular intervals for ongoing protection.

Flexible Scheduling

Run automated penetration tests monthly, quarterly, or continuously, depending on your business needs.

Affordable for SMBs

Enterprise-level penetration testing delivered at a fraction of the traditional consulting cost.

Why Choose PenTest360™ from SecureGovernComply?

Unlike one-time penetration tests that leave blind spots, PenTest360™ provides ongoing assurance that your defenses are ready.

With SecureGovernComply, you gain:

Expert Oversight

Automated testing results are reviewed and contextualized by security professionals.

Governance Alignment

Findings are mapped to compliance requirements for audit readiness.

Actionable Insights

Clear prioritization helps you fix what matters most, faster.

PenTest360™ is more than a penetration test—it's continuous attack simulation that evolves with your business.

Think like a hacker. Defend like a pro. Stay secure a complete 360 degrees.
