main street's cybersecurity expert

PhishDefend360™

Comprehensive Phishing Protection & Awareness for SMBs

Phishing is the **#1 way cybercriminals breach businesses**, tricking employees into clicking malicious links, sharing credentials, or downloading malware. For small and mid-sized businesses, even one successful phishing attack can mean financial loss, data compromise, and reputational damage.

That's why SecureGovernComply® created **PhishDefend360™**—a turnkey phishing protection service powered by **Kaseya's proven platform**. Combining **automated defenses, ongoing testing, and employee education**, PhishDefend360™ helps you stay one step ahead of attackers while building a culture of cyber awareness across your organization.

PhishDefend360™ delivers enterprise-grade phishing protection tailored for SMBs—simple to deploy, easy to manage, and highly effective.

Advanced Email Protection

Blocks malicious links, attachments, and spoofed emails before they reach your users.

Phishing Simulation Campaigns

Ongoing, automated phishing tests to measure and improve employee awareness.

User-Friendly Security Training

Engaging micro-trainings that teach employees how to spot and avoid phishing attempts.

Automated Remediation

Neutralizes suspicious emails quickly to prevent business disruption.

Centralized Reporting

Clear dashboards and metrics showing phishing resilience and training progress.

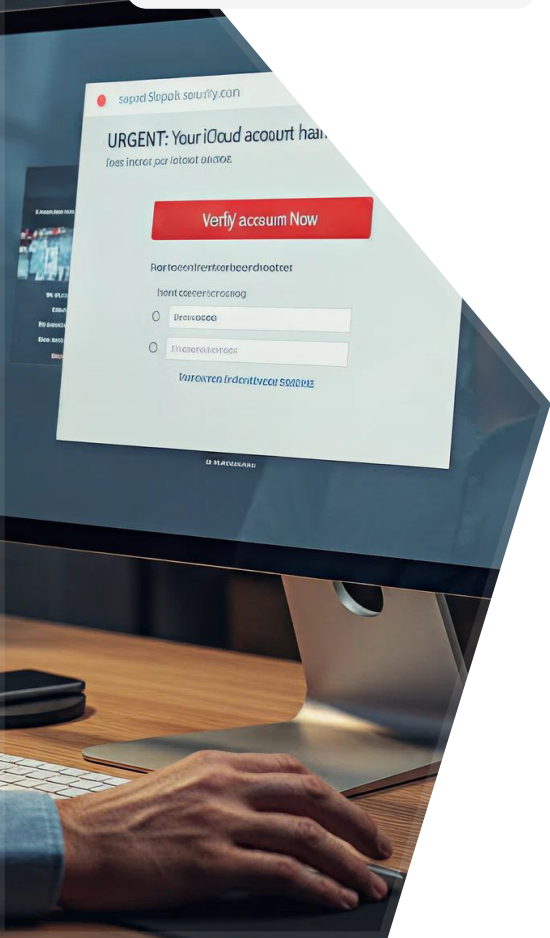

Scalable & Affordable

Designed for SMBs, PhishDefend360™ grows with your business without the cost or complexity of enterprise systems.

Compliance-Ready Support

Meets requirements for frameworks like PCI DSS, HIPAA, and NIST by proving proactive user awareness efforts.

Why Choose PhishDefend360™ from SecureGovernComply?

Most phishing tools stop at filtering emails—
PhishDefend360™ goes further.

With SecureGovernComply, you get:

Technology + Human Protection

Combines automated email filtering with human-focused testing and training.

Governance Expertise

Links phishing resilience directly to compliance and security frameworks.

Measurable Results

Clear data to show reduced risk and improved employee awareness.

PhishDefend360™ is more than email protection—it's a proactive shield that combines advanced technology with employee readiness.

Block the threats. Train your people. Defend your business.
