

SecureGovernComply®
main street's cybersecurity expert

SecureScan360™

At SecureGovernComply®, we know that small and mid-sized businesses face the same cyber risks as large enterprises—without the luxury of enterprise-sized security budgets. That's why we created **SecureScan360™**, a vulnerability assessment service designed to uncover hidden risks before attackers exploit them.

Built on industry-leading technology and backed by our expertise in security, governance, and compliance, **SecureScan360™** delivers actionable insights that strengthen your defenses, support compliance mandates, and prove to your clients that you take security seriously.

SecureScan360™ gives SMBs access to enterprise-grade scanning without the complexity or cost. Powered by our trusted partner, HostedScan, this cloud-based service provides:

Automated Vulnerability Scanning

Continuous scans of your systems, applications, and networks to uncover weaknesses

Comprehensive Coverage

Includes network, web application, and TLS/SSL certificate scans to identify risks across your digital environment.

Compliance Support

Aligns with key regulatory requirements (PCI DSS, HIPAA, GDPR, and more), helping you maintain audit readiness.

Flexible Scheduling

Run scans on-demand or schedule them at regular intervals for ongoing protection.

Easy-to-Read Reports

Receive prioritized vulnerability reports with clear remediation guidance—perfect for both IT staff and business leaders.

Cloud-Based Delivery

No hardware or software to maintain—scans run securely from the cloud.

Affordable Pricing

Tailored for SMBs—get enterprise-grade insights without enterprise-grade costs.

Why SecureScan360™ from SecureGovernComply?

Unlike generic tools, SecureScan360™ isn't just about finding vulnerabilities—it's about managing risk in a way that fits your business.

With SecureGovernComply, you get:

Security Expertise

We interpret scan results and help you prioritize fixes that matter most.

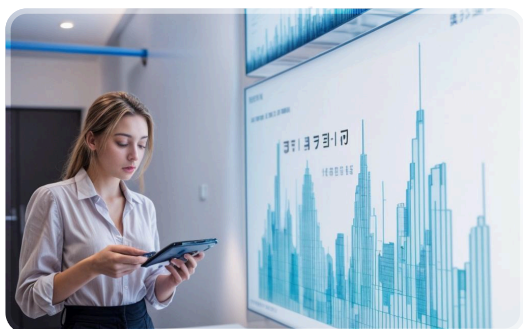

Governance Alignment

Scan data is mapped to policies and frameworks that support your compliance needs.

Peace of Mind

Knowing vulnerabilities are identified and addressed before they can be exploited.

SecureScan360™ is more than a vulnerability scanner—it's a smart, affordable way to protect your business, demonstrate compliance, and build trust with your customers.
