ManagedFirewall360™

Fully Managed Firewall Protection by SecureGovernComply®

If your business relies on internet connectivity, cloud applications, or remote access, your firewall is critical—but without continuous monitoring and expert management, it can quickly become ineffective.

SecureGovernComply's ManagedFirewall360™ delivers a fully managed, enterprise-grade firewall solution built on the proven technology of Fortinet. Designed for small and mid-sized businesses (SMBs), it combines next-generation firewall protection, 24x7 monitoring, and continuous optimization to keep your network secure at all times.

More than just a firewall, ManagedFirewall360™ ensures your environment is properly configured, actively monitored, and continuously improved to defend against modern threats.

Product Details

Next-Generation Firewall Protection

Deep packet inspection and application control, intrusion prevention (IPS), SSL/TLS inspection for encrypted traffic, and web filtering with DNS security.

24x7 Monitoring and Threat Detection

Real-time monitoring by security professionals, immediate alerting on suspicious activity, integration with global threat intelligence, and rapid detection of anomalies.

Firewall Policy Management and Optimization

Ongoing rule review and tuning, removal of outdated or risky policies, configuration hardening based on best practices, and documented change management.

Advanced Threat Protection

AI-driven threat detection, zero-day protection via sandboxing, defense against ransomware and malware, and continuous intelligence updates.

Secure SD-WAN Enablement

Intelligent traffic routing and failover, optimized connectivity for cloud and SaaS applications, reduced MPLS dependency, and secure multi-location connectivity.

Centralized Dashboard and Reporting

Unified visibility into traffic and threats, monthly executive and technical reports, compliance-ready audit logs, and clear insight into risk and performance.

SMB-Focused Design

Fully managed with no in-house expertise required, affordable and predictable pricing, fast deployment, and scalability for growing environments.

The SecureGovernComply Advantage

Powered by Fortinet's proven firewall technology, ManagedFirewall360™ includes expert 24x7 management and monitoring, simplifies security operations, and is purpose-built for SMBs. It integrates seamlessly into the SecureGovernComply "Secure, Govern, Comply" framework for complete, 360° protection.

With **ManagedFirewall360™**, SecureGovernComply delivers more than a firewall—it delivers continuous protection, visibility, and confidence.

ManagedFirewall360™ — Protect Every Connection. Monitor Every Threat. Secure Your Business.
