

SecureGovernComply®
main street's cybersecurity expert

SecureEndpoint360™

Next-Generation Endpoint Protection for SMBs

Endpoints—laptops, desktops, and mobile devices—are the **front door to your business**. They're also the favorite target of cybercriminals. Malware, ransomware, phishing, and zero-day attacks often begin with just one unprotected device.

That's why SecureGovernComply® created SecureEndpoint360™ an all-in-one endpoint protection solution is designed for small and mid-sized businesses, combining powerful threat prevention, detection, and response with centralized management—keeping your devices, data, and people safe.

Endpoint360™ delivers enterprise-grade protection in a solution built for SMBs—easy to deploy, cost-effective, and highly effective.

Next-Generation Antivirus (NGAV)

Stops malware, ransomware, and zero-day threats with AI-driven detection.

Endpoint Detection & Response (EDR)

Identifies suspicious behavior, isolates compromised devices, and enables rapid recovery.

Automated Remediation

Removes malicious files, rolls back infected systems, and minimizes downtime.

Centralized Management

Monitor, patch, and protect all endpoints from a single, cloud-based dashboard.

Phishing & Exploit Protection

Blocks malicious links, attachments, and drive-by downloads before they reach users.

Compliance-Ready Security

Helps meet regulatory standards like PCI DSS, HIPAA, and NIST by demonstrating endpoint controls.

Scalable & Affordable

Flexible pricing that grows with your business, without enterprise-level overhead.

Why Choose SecureEndpoint360™ from SecureGovernComply?

Most antivirus tools only defend against **known threats**. **Endpoint360™ goes further**, offering advanced detection, automated response, and governance alignment—without the complexity or cost of enterprise tools.

With SecureGovernComply, you get:

Technology + Expertise

Industry-leading endpoint security paired with SMB-focused security guidance.

Governance-Driven Approach

Security mapped directly to compliance and best practices.

Affordable Enterprise Security

Advanced protection built for SMB budgets.

Endpoint360™ is more than antivirus—it's a full circle of protection for every device, every employee, and every business.

Secure every endpoint. Stop every threat. Protect your business with Endpoint360™.
